## Learning in the Workplace

**For the last two weeks our Scarlet Ten students have been out in the community learning about the world of work** through their work experience placements. Teachers have been visiting students in their workplaces to see them in action and to discuss their learning, as well as talk to their employers about the students' performance.

Our students managed to secure placements with a wide range of employers in different industries, both locally and far afield.

Overwhelmingly, our students have been impressive ambassadors for the school. Employers have been keen to offer future work experience placements based on the performance of our students this year.

Work experience helps students make choices about their future educational pathways, as well as providing skill building, experience and referees for resumes. In the last week of term Scarlet Ten students will be updating their resumes, writing thank you letters to their employers and sharing their work experience learning with the Jet students.

Along with some administrative and technical tasks, April learnt to archive film footage and prints at Liminal Theatre. April has been so helpful that Robert was wishing he could have another work experience student in the next few months.

Bonnie learnt how to best communicate with potentially aggressive clients and to edit a Policy and Procedures Manual at Northland Youth Centre.

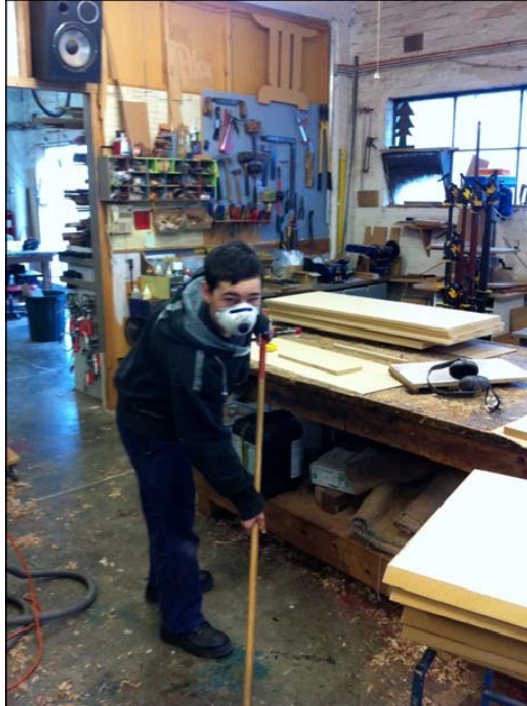

Sam looks the part in his office attire at McGrath Nicol at Southbank. He is going to repeat his presentation in class.

Barker Monahan is a local land surveying company. David Monahan was impressed with Darcy's ICT skills, particularly his work on Auto CAD. Darcy learnt a lot about an industry, of which previously he knew nothing about.

At Wilkins and Kent Adam showed a keen interest in all aspects of the furniture design and manufacturing process in the workshop.

Jemima spent a week at HWT and a week at Thread Den in Brunswick Street. She jumped at the chance to do another week of work experience in the holidays at Circa Vintage Clothing in Gertrude Street. At Thread Den Jemima was helping to transfer paper patterns to cardboard.

At Melbourne Podiatry Group, Dimitri learnt about the importance of patient confidentiality, the impact of diabetes on feet, as well as observing some podiatric surgery. He enjoyed communicating with patients and described his choice of work placement as one of his best decisions.

Georgia enjoyed writing on the chalkboard, announcing each show at La Mama Theatre. She also had the responsibility of collecting the mail each day.

## Sports reports

### Year 7 soccer

**The Year 7 soccer team had a great day at interschool sport last week.** The day started off with a 2 -1 win over Brunswick Secondary College. The first goal was scored by Brunswick putting a nervous edge on Fitzroy but the team quickly stepped up after some team changes with Mo scoring the two winning goals.

The next match against Collingwood was a close game and we managed a 1-1 draw. After these two close matches, Fitzroy blasted away with a 9-0 thumping over Glenroy. The last game of the day was very important to make sure we made it into zone. A 4-0 win over Fawkner definitely improved our chances.

After all this, it came down to Fawkner and Collingwood. With all of Fitzroy screaming for Fawkner to get us through to the next round, Fawkner managed a 0-0 draw putting Fitzroy into a state of frenzy because we have moved to the top of the table!!

Fitzroy are now preparing for zone. As a team, we would like to thank our coach for taking us out on the day. Thanks Rocco!!
